Management's Discussion and Analysis

Optimum utilization of gas transportation infrastructure plays an important role in the gas industry for efficient delivery of gas to end consumers. In spite of various constraints experienced by the company, it has been successfully operating the dedicated state-of-the-art Duliajan Numaligarh Gas Transportation System.

Directors perception of the future of the Company from the point of view of Market competition, production/service constraints and Government Policies etc.

To grow, the company has to expand its operations. As per the Hydrocarbon Vision 2030 for North Eastern Region of the Govt of India, the company is likely to be part of the consortium engaged in the development of the trunk gas pipeline connecting the Duliajan Numaligarh Gas Transportation System to the proposed Barauni – Guwahati Numaligarh Pipeline system.

Strengths, Weaknesses, Opportunities and Threats

DNPL's primary strength emanates from the fact that the three promoters represent three vertices of the gas value chain – gas producer OIL, gas transporter AGCL and gas consumer, NRL. The professional strengths and unstinted support of the three promoter organizations are always available to your company in all its endeavors and in overcoming various challenges.

DNPL owns and operates a single dedicated gas transportation system delivering gas from a single source to a single customer. The major weakness of the company is that any variation in supply of gas by the producer and / or variation of drawal of gas by the consumer may adversely affect your company's revenue.

Risks and associated concerns for 2018-19 mainly pertain to possible reduced availability of contracted quantity of natural gas from the producer due to changing field conditions.

Human Resource

Your Company is committed to operational excellence and increased productivity through optimum utilization of human resources. The company recognizes the need for strategic and customer centric HR initiatives through development of HR strategy aligned to the overall organizational goal. It has continued to enable its employees to work in a conducive environment, leveraging technology to ease its operations.

As on 31st March, 2019, there were total 29 employees on the roll of the Company of which 14 are executive cadre and remaining 15 are non executive cadre.

During the year, some of the key technical and managerial personnel drawn from AGCL during project execution stage continue to be engaged in your company's operations on full time as well as on part time basis. They were being supported by technical and non technical manpower of the Company togetherwith manpower outsourced to manpower supply agencies.

Safety

During the year 2018-19, there was no loss time accident (LTA). Regular Mock drills and Safety

meetings awareness programmes were organized during the year. The Safety Policy may be accessed at the Company's website at www.dnpl.co.in.

Industrial Relations

Industrial relations were cordial and harmonious throughout the year. Issues with various groups and agencies were amicably resolved facilitating smooth conduct of business during the year.

This supplementary audit has been carried out independently without access to the working papers of the Statutory Auditors and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records.

Based on my supplementary audit, I would like to highlight the following significant matters under Section 143(6)(b) of the Act which have come to my attention, and which, in my view, are necessary for enabling a better understanding of the financial statements and the related audit report:

A. COMMENTS ON DISCLOSURE

1. As per the significant accounting policies no C(b) of the Company, Property Plant and Equipment are valued in accordance with Ind AS-16. Scrutiny of accounting entries relating to compressors revealed that the Company has capitalised cost of overhauling of the plant as well as inventory utilised.

As per the para 13 and 14 of the Ind AS -16 read with para 67 to 72 the carrying amount of those parts that are replaced is derecognised in accordance with the derecognition provisions of this Standard. Further the carrying amount of previous inspection cost of the assets is also required to be de-recognised. However, the Company had neither de-recognised the carrying amount of the parts replaced nor made any disclosures in this regard in the Notes to the Accounts.

2. The Company falls under the payment of Gratuity Act 1970 and has taken a Group Gratuity Scheme from the Life Insurance Corporation of India. With the issue of notification by the Gol

on 29 March 2018 the limit to gratuity payable to each employee has been increased to ₹20 lakh from the previous limit of ₹10 lakh. However, the company has been maintaining the fund based on the previous limit of ₹10 lakh only. The Company has at present 27 employees on its pay roll. However, the Company has neither calculated the enhanced amount of liability nor provided any disclosure in the Notes to Accounts.
