

## **SAFETY POLICY**

DNP Limited is committed to provide a safe working environment to promote the prevention of damage or loss to all personnel, materials, equipment and property.

We are dedicated to ensure a safe and accident free work environment where safety is of equal importance to our business objectives.

In pursuance of the above, the objectives of DNPL are:

- To establish and implement a safety management system and communicate the policy in all employees and stakeholders.
- To comply with all relevant statutory rules and regulations on safety.
- To identify and control all hazards at our worksites.
- To promote Safety Awareness & encourage knowledge up gradation amongst all the employees & contractors' personnel.
- To take up periodic audit of the installations and ensure proper compliances by adopting good engineering practices.
- To ensure that all employees are provided with relevant statutory trainings periodically and necessary Personal Protective Equipment (PPE).
- To improve continuously the Safety Performances by establishing clear and measurable objectives through systematic implementation of plan.
- To encourage all level of employees to put forward suggestions on safety procedure for effective implementation.
